Maine Moon, Jennifer Merz

Sunset Brook, Elizabeth Robles

Winter Waltz, Joy Yoo

Springboard ARTISTS

Springboard is a unique group of seven women artists with varied art backgrounds from Bergen County, NJ and beyond. We are oil painters, illustrators, watercolorists, collagists, and digital artists with art ranging from realistically-rendered watercolors to expressive oil paintings; from handcrafted collages to compelling abstract compositions.

Our work can be found in children's publishing, on home products, in local exhibitions, and in private collections. While some members are devoted to a fulltime art practice, others combine their art-making with demanding careers in textiles, dentistry, or education. Mostly, we are friends and colleagues brought together by a desire to propel ourselves to greater skills and accomplishments, and by a passion to share our art with others.

Formed in 2018, Springboard began as an outgrowth of a local Tuesday night painting class. At our current monthly meetings, we critique each other's work offering technical solutions, but mainly, we encourage one another to accept new creative risks, tackle challenges, and step out of our comfort zones. With support for our members' triumphs and tribulations, we make room for greater confidence in our art practices.

We are delighted to be showing our work at the Stable, Ridgewood, NJ for the month of November 2022 and will be having an artists' reception on Sunday, November 13th from 2:00-4:00 pm. All are welcome!

If The Stable parking lot is full, other areas to park are a short walk away. Thank you!
